Commissioner for Patents

P.O. Box 1450

Alexandria, VA 22313-1450

### DECLARATION OF GIOVANNI SENI UNDER 37 CFR §1.131

I, Giovanni Seni, being duly sworn, state as follows:

#### FACTS

1. I am a first and original inventor of the subject matter of the pending U.S. patent application, U.S. Patent Application No. 10/606,423 filed on June 26, 2003. I conceived of this invention at least as early as prior to February 27, 2003, the effective date of reference US 6,661,409 to Demartines et al., of which I am a co-inventor.

2. I wrote and submitted the three-page invention disclosure attached hereto and conceived of the invention described therein at least as early as prior to February 27, 2003. This invention disclosure was prepared and filed as instant application, U.S. Patent Application No. 10/606,423 filed on June 26, 2003.

3. Based upon my review of the above-referenced patent application, I have the following observations:

4. The three-page invention disclosure attached hereto shows conception of the invention at least prior to February 27, 2003. Page two of the invention disclosure discloses a touch input screen, a display element, and a scrolling mechanism, referenced as "input area", "visible window area", and "By virtue of each ink trace trailing off and being removed from the input area" in the invention disclosure document. The invention disclosure attached hereto discloses at least a submitted date of April 17, 2002 and a review date of June 20, 2002; both of these dates provide evidence of conception of the invention prior to February 27, 2003.

5. Also submitted and attached hereto are email records that show that conception at least prior to February 27, 2003 coupled with due diligence from prior to February 27, 2003 until the instant application was filed on June 26, 2006. These email records comprise from oldest to newest date order:

- Email from Michelle Larson, registered U.S. Patent Attorney, to me discussing our conversation regarding the disclosure, January 14, 2003

- Email from myself to Michelle Larson regarding another patent application and a paper, January 14, 2003.
- Email from Michelle Larson to me asking for additional technical information and diagrams, January 27, 2003
- Email from myself to Michelle Larson regarding files sent to her and plan to get other requested materials to her, January 31, 2003
- Email from Michelle Larson to me acknowledging receipt of earlier email, February 3, 2003.
- Email from myself to Michelle Larson regarding information I sent to her for the patent application, February 13, 2003
- Email from Michelle Larson to me asking for document to be resent, February 13, 2003
- Email from me to Michelle Larson verifying information had been resent.
- Email from Carlos Mcevilly to me regarding the invention, February 17, 2003.
- Email from me to Michelle Larson, forwarding on February 17, 2003 email from Carlos Mcevilly, February 18, 2003
- Email from me to Michelle Larson thanking me for information sent to her, February 21, 2003
- Email from Michelle Larson to me giving me an update on the status of the patent application, April 30, 2003
- Email from me to Michelle Larson regarding status update for filing application, April 30, 2003
- Email from Michelle Larson to me with draft of patent application, June 6, 2003
- Email from me to Michelle Larson regarding first draft, June 10, 2003
- Email from me to Michelle Larson with comments on first draft, June 12, 2003
- Email from me to Michelle Larson with comments on draft, June 24, 2003
- Email from Michelle Larson to me with final draft, June 26, 2003
- Email from Michelle Larson to me regarding application, June 26, 2003
- Fax from me to Michelle Larson regarding signed paperwork for filing, June 26, 2003

The information and opinions provided herein are sworn to be true and to be originated by me. I further declare that all statements made of my own knowledge are true and all statements made on information and believe are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and may jeopardize the validity of the present application or any patent issued thereon.

Hi Michele,

the internal number of the related filing was CML00005H, entitled "AUTOMATICALLY SCROLLING HANDWRITTEN INPUT USER INTERFACE FOR PERSONAL DIGITAL ASSISTANTS AND THE LIKE", and filed on 8/22/01. The copy I have of it, with figures, is attached. Also attached is a copy of the paper I presented at IWFHR-8 last summer. Best regards and thank you for your assistance.

Dear Giovanni:

It was a pleasure speaking with you this afternoon about your patent application.

Here are the questions we discussed; please send the answers at your earliest convenience:

- 1) Source code & any flowcharts
- 2) Any configurable items
- 3) Description of the optional toolbar shown on figure 4
- 4) The electronic form of the disclosure
- 5) The 10Mb Video
- 6) Ink trace definition and description as to deletion

Leo, we need your assistance on getting a 10MByte file from inventor Giovanni Seni. Giovanni tried sending it to me this afternoon but it was bounced back, due to its size, by the Motorola system. Can you please let Giovanni know the best way to get it to me? His number is: 650-318-3203.

I'm not familiar with the WIP acronym. As I stated in my email, the invention was demo to an outside company two weeks ago under NDA. I believe we have expressed earlier the need to move forward with this application expeditiously. Please advice on a timeline for filing. Thanks,

Hi, Giovanni. The draft is still in WIP. Please do not disclose anything outside the company before the application is filed. Please send me an e-mail to let me know when you need to disclose these by. I am visiting an inventor in Plantation, FL today and tomorrow but will be checking my e-mail.

Thank you,

Dear Giovanni,

Here is the draft we discussed. Please look it over and let me know how it looks. I will also call you to discuss.

Motorola atty. Jim Lamb has just recently contacted me about some possible prior art and I am going to give him a call.

Also, the application doesn't yet have the additional info you recently sent.

Best regards,

## Message

Here's the latest version with some comments. The proposal for including recognition with this one sounds fine to me. Other notes:

- on page 6 there was a comment of mine from last time that didn't get responded.
- if figues are going to artist, it would be nice if we can switch to our latest toolbar design at the bottom
- we recently realize that there might be some advantages to having the scrolling area "transparent" (so you could see what is under)... should this be mentioned as a dependant clause or are we cover by not saying anything about the background of this window?

Many thanks... the claims look nice.

Dear Gio:

Attached is what we believe to be the final draft of your patent application; I have left the most significant changes highlighted for ease of reading.

Please note that we had trouble scanning in the most recent version of the user interface, so reference number 126 was added to FIGs. 1-3 and the items in the new UI were discussed at the bottom of page 8 in connection with reference 126.

Also attached are the paperwork for your signature. We need to file this today if at all possible, since I will be out of the office after today and not returning until after July 1st. Please print the documents, sign, and fax them back to me at 301-668-3074, also please put the originals in FEDEX back to me for our records.

Thank you, Gio. Please do not hesitate to contact me if you have any questions.

Regards,
